

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

From the Map page of the Manager App, you can view your vehicles, assets, landmarks, and drivers on a map. By default, the map focuses on all vehicles in your fleet when you first open the app. You are also given the option to search and/or expand your Map Lists (Vehicles, Assets, Landmarks, and Drivers).

Note. The Driver feature is available to customers with the Driver Management add-on only. Please contact your Account Manager if you would like to learn more.

Adjusting the Map

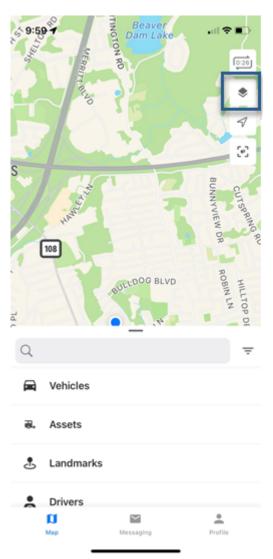

You can use the Map Overlay options (Vehicle, Assets, Landmark, and Driver) to see vehicles, landmarks, and drivers on the map or you can de-select one or all of these options to adjust what is shown on the map.

How to show vehicles, assets, landmarks, and drivers:

1. From the Map page, tap **Map Options**.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

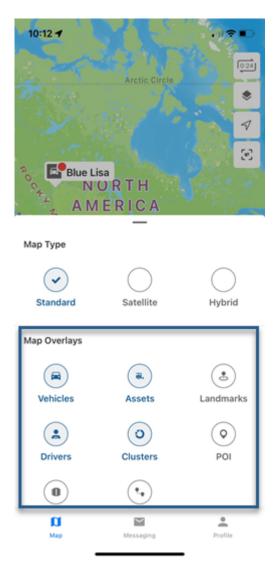

The Map options page appears.

2. Tap Vehicles, Assets, Landmarks, and/or Drivers overlays if you would like to view them on the map.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

The icon turns blue to indicate the selected item will be shown on the map. The icon turns gray to indicate it will not appear on the map.

3. To toggle off a selected item, tap the icon again.

Viewing a Map List

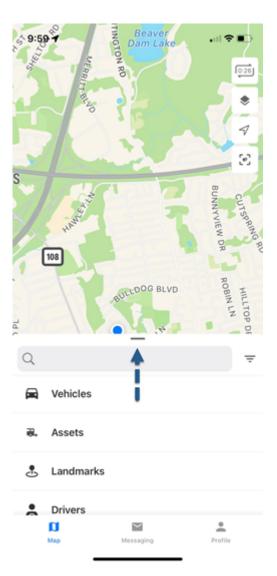

You can view Map Lists from the Map page to view a list of your vehicles, assets, landmarks, or drivers and select a vehicle, asset, landmark, or driver to see the associated card and perform available actions (dependent on card type).

How to view a map list:

1. From the Map Page, expand the Map List section by tapping and dragging up the expand button.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

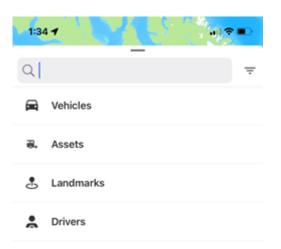

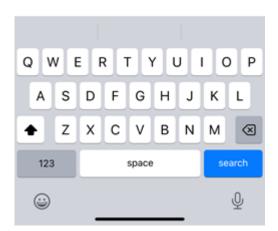

The Map List section should now appear full screen.

2. Tap the list type (Vehicle, Asset, Landmark, or Driver) you would like to view.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

The selected list appears.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

You can perform actions such as assigning a driver, centering the map over the selected vehicle, and/or viewing trip history from a selected vehicle's Vehicle Card. Additionally, the Vehicle Card shows detailed information about the vehicle such as its location (street view may be available), driver assignment, and vehicle details.

You can select a vehicle to work with by using the steps included under Viewing a Map List (from the Vehicle

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

List), you can tap on a vehicle displayed on the map, or you can use the Search field available in the Map List section by typing in the vehicle label.

Assigning a Driver

You can assign a driver or un-assign an assigned driver directly from the Vehicle Card.

How to assign a driver:

1. From the Vehicle Card, tap the Assign Driver icon.

<	(no driver assigned) Scottsdale, AZ 85254	
Assign Driver		
Note. You can also assigned to the second	n a driver by tapping Assign Driver ion of the card.	under Assignments in the

Note. To un-assign, tap **Unassign Driver** and then tap **Unassign**. Additionally, you can tap on the **x** under Assignments and then tap **Unassign**.

Contacting a Vehicle

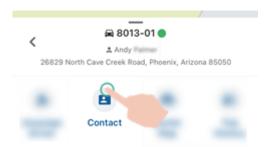

If you have assigned a driver to a vehicle and the assigned driver has associated contact information (entered in the Portal previously), you may contact the vehicle from the Vehicle Card.

How to contact a vehicle:

1. From the Vehicle Card of a vehicle with an assigned driver, tap the Contact icon.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

The Contact pop-up appears with the option to call or message the vehicle.

Contact	
Call	
Send Messa	ige
Cancel	
	_

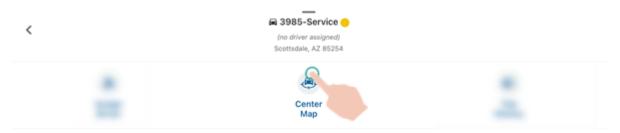

2. Tap your preferred contact method to contact the vehicle.

Centering the Map Over the Vehicle

You can center the map over the vehicle to get a better understanding of your vehicle's location and inform your decisions.

How to center the map over the vehicle:

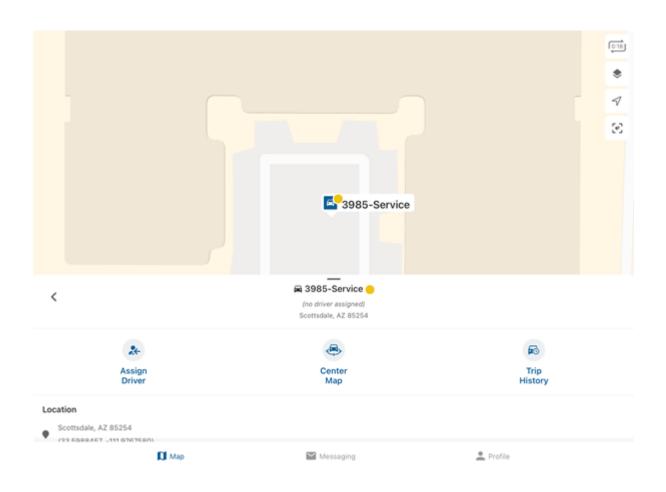

1. From the Vehicle Card, tap the **Center Map** icon.

The map centers over the vehicle selected.

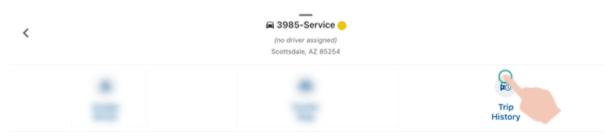

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

Viewing Trip History

You can see recent trip activity for a vehicle from the Vehicle Card.

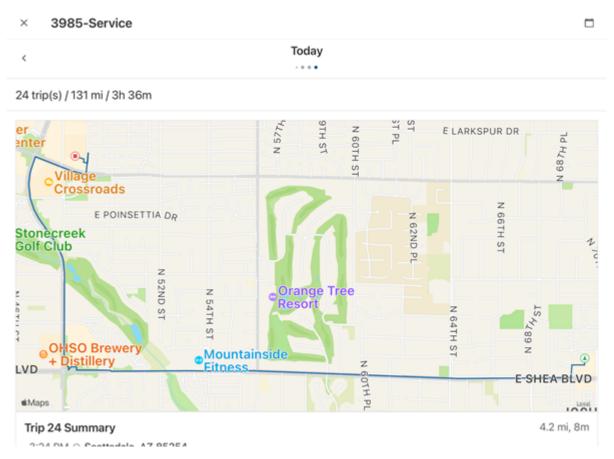

1. From the Vehicle Card, tap the **Trip History** icon.

The Trip History page appears showing trip activity for the current day.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

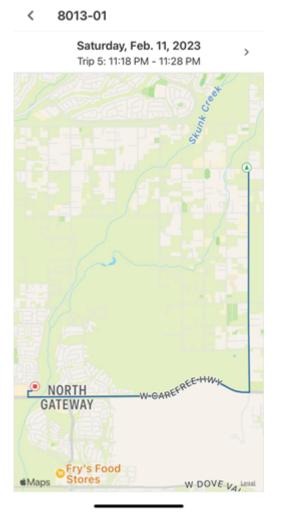

2. Use the Calendar icon to choose a different date, or use the **or** > **buttons to the right and left of the date to change the selected date, to see activity for the corresponding day.**

Trip summaries are shown for each trip on the selected date providing trip totals (miles, time) and a breakdown of activity with time between vehicle status changes and location.

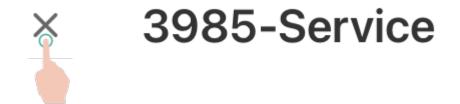

3. Tap a trip summary to view the trip full screen.

Link: https://help.responsiblefleet.com/docs/about-gps-insight-manager/manager-app-working-with-the-map/ Last Updated: February 15th, 2023

- 4. To exit the full screen visual of the trip, swipe right.
- 5. To exit the Trip History page, tap the **X** next to the vehicle label.

Viewing Vehicle Information

The Vehicle Card Details section provides at-a-glance information about the selected vehicle including:
