

Metrics Reports is a special dashboard that is specific to custom metrics. It allows you to view summary, detail, and trend data about an existing **custom metric** using various charts and tables.

Access a Metrics Report

The default metrics report view allows you to view the following report items: Summary, Guages, Top Performers, Bottom Performers, Score Trend Chart, and Rank Detail.

► To access a Metrics Report:

1. From the portal, hover over the **More** menu, click **Manage Metrics**, and click **Metrics Reports**.

The Metrics Report page opens in a new browser tab.

1. From the Report Options area, choose a vehicle **Group**, the **Metric** you want to run, and the **Date(s)** to include in the report.
2. Click **Run Report**.

The screenshot shows a 'Report Options' form with a settings gear icon in the top right. It contains the following fields: 'Group' with a dropdown menu showing 'Company XYZ', 'Metric' with a dropdown menu showing 'Aggressive Driving Scorecard', and 'Date' with radio buttons for 'Y', '1w', '1m', '3m' (which is selected and highlighted in red), and '6m', along with a calendar icon. Below these fields, the date range '2/8/2016 - 5/7/2016' is displayed. At the bottom, there are two buttons: 'Schedule' and 'Run Report', with a mouse cursor clicking on the 'Run Report' button.

The report loads the following report items:

Summary

Displays the metric selected, the vehicle group selected, the number of vehicles included in the report, the report time period, and the group total. The group total reflects either the Average or Summary based on your selection in Report Options ().

| Summary | |
|--------------------|-------------------------------|
| Metric: | Aggressive Driving Scorecard |
| Group: | Company XYZ |
| Vehicles Shown: | 12 of 14 |
| Report Period: | 2/8/2016 - 5/7/2016 (90 days) |
| Group Total (Avg): | 895 Score |

Gauges

Displays guages for Max, Min, Median, and Average. Also includes a standard deviation chart for

Normalized data and a bar chart for Scores.

Top Performers

Displays the top 5 (default) performers. Click the **Settings** icon to change to the top 10, 15, 20

| Top Performers | Settings |

Score Trend Chart

Displays a bar chart showing scores for each vehicle in the selection. Average and Median lines overlay the chart for quick analysis of vehicles that fall above or below those thresholds. Click the **Options** icon to view print/export options for the chart. Clicking the red arrow in the chart below (Rank Detail) affects the sort order of this chart. You can also change default sort order using the **Edit Settings** (gear) icon from the Report Options area.

Rank Detail

Displays rank detail for reach vehicle in the selection. Click the **Filter** icon to limit the data set based on Vehicle, Date, Distance, Runtime or Score. Use the **Hide/Show** (👁) icon to hide individual columns. Click the **Export** icon to export data to a CSV file (Hide/show selections apply to exported reports). Click the red arrow to sort in ascending/descending order.

Show Scorecard Components

Scorecard components allow you to view the metrics report from the perspective of a scorecard (if available). Instead of the Rank Detail, the scorecard is shown with columns for each metric that makes up the scorecard. You can drill into a specific metric from the scorecard to dynamically update the Gauges and Trend Chart.
