

Here's what's new for Driveri!

What's New

Portal Updates

Introduction of Driver Insight Report

The Driver Insight Report is available on the Reports Central page. This report displays Driver details for the selected duration, such as Driver Score, Fleet Goal, Fleet Average, Total Minutes Analyzed, Green Minutes %, Alerts Generated, Average Following Distance, and Projected Score if the High Impact Alerts were not generated. Support for Managed Fleets will be added in a future release.

Introduction of Max Force Column on Event Access Page

A new column "Max Force" is introduced in List View on the Create a New Request page in Event Access. This column can be used to find videos of events where high forces were measured.
